

Gatineau Park is CLOSED to bikes

OMBA is urging all members of the mountain bike community to follow the rules in Gatineau Park. On November 30th Gatineau Park closed to mountain bikes. The Pilot Snowbike trails will not be open until there is 2 inches of packed snow. Failure to respect these rules is putting our Pilot Project in danger of being closed and jeopardizing any further legitimate access into the park. The NCC has informed us of many recent complaints of riders on unofficial trails/pilot project trails with mountain/fatbikes, which is not good for the pilot project since other user groups were afraid of this happening. OMBA believes this snowbike Pilot Project is the beginning of a new relationship for mountain bikers with the NCC and it has taken 10 years of hard work and lobbying to get to this point. We need the community of mountain bikers to come together on this and respect the rules. Please circulate this message.
